Package Contents

Bluetooth Pairing

1. Remove the earphones from the charging case.
2. Turn on Bluetooth on your device.
3. Look for the headset named WallaBuds Pro Dot in the Bluetooth list.
4. Select it and tap Connect. You will hear a voice prompt once the connection is successful.

Note: If the headset has been paired before, it will automatically reconnect to the device within 2–4 seconds. If it does not connect to any device, it will automatically power off after 3 minutes of inactivity.

Turn On

- Open the top cover of the charging case and remove the earphones. They will automatically power on and enter pairing mode, ready to connect to your phone.
- If the earphones are not in the charging case and are turned off, press and hold both the left and right earbuds for 3 seconds to power them on.

Turn Off

- Place both earbuds back into the charging case and close the lid. The earphones will automatically shut down and begin charging.

- While the earbuds are connected, press and hold either for 5 seconds to turn off.

	Voice Assistant (Siri)	Activate voice assistant
	Activate Voice Assistant - Press and hold for 1.5 seconds	

Precautions for use

1. Store the earbuds in a dry, well-ventilated area. Avoid contact with oil, water vapor, or steam to maintain optimal performance.
2. Do not use harsh chemicals, organic solvents, or materials containing these substances when cleaning the earbuds.
3. Use the headset according to the specified instructions. Keep in mind that environmental factors can affect performance. For best connectivity, keep the mobile phone within 33 feet (10 meters) of the earbuds.
4. If the earbuds fail to connect or function properly, do not attempt to disassemble them. Unauthorized handling may void the warranty.
5. Use only the standard car charger or the charger provided/recommended by the manufacturer.
6. Ensure the earbuds are adequately charged before use for normal operation.
